For your consideration I have enclosed a copy of my resume and demo reel with this cover letter. I believe, my resume will demonstrate that I have the complete range of skills and experience for the advertised position including the communication and computer skills mentioned. I am sure, your company will definitely benefit from my enthusiasm, creativity and keen eye for detail. I m an excellent team member and always willing to learn.

I am 25 years old, I love watching visual effects movies since my childhood. It's always been my dream to work for an effects company like yours. I embrace challenges and above all, am willing to go the extra mile for my craft. I hope that you will agree that my show reel reflects this. I have mainly concentrated on visual effects part in my demo reel. My specialization in CG is explosion effects using blast code, cloth simulation and fluid simulation. I am self practicing and doing R&D on Real Flow and Houdini softwares.

I m also interested in movie making, cinematography and direction also. I would love to be a part of entertainment, movie & television industry.

I look forward to hearing from you soon. I am available for interview any time at your convenience.

Thanks

Yours sincerely
